

JORDAN REED

Senior Python Developer & AI Systems Architect

San Francisco, CA • jordan.reed.dev@example.com • +1 (555) 987-6543 • github.com/jreed-ai-labs

PROFESSIONAL SUMMARY

Highly analytical Senior Python Developer with over 7 years of experience specializing in backend orchestration and Large Language Model (LLM) integration. Expert in building multi-agent systems using the **Google Gen AI SDK (Gemini)**. Proven ability to design scalable "Parser-Analyst-Coach" architectures that transform unstructured document data into actionable business intelligence.

CORE TECHNICAL EXPERTISE

Languages	Python (Expert), SQL (PostgreSQL), Go, Bash
AI & NLP	Google Gemini Pro/Flash API, LangChain, OpenAI, Vector Databases (ChromaDB, Pinecone)
Web Frameworks	FastAPI, Django, Flask, Pydantic (Data Validation)
DevOps & Cloud	Docker, Kubernetes, GCP (Vertex AI, Cloud Run), CI/CD (GitHub Actions)

PROFESSIONAL EXPERIENCE

Senior AI Solutions Engineer <i>CloudScale Solutions</i>	2022 — Present <i>San Francisco, CA</i>
--	---

- Lead the development of an automated recruitment pipeline using **Gemini 1.5 Flash**, achieving a 90% reduction in manual screening time for technical roles.
- Designed a multi-agent workflow featuring specialized agents for PDF parsing, semantic scoring, and personalized candidate feedback.
- Utilized **Pydantic** and Gemini's structured output mode to ensure 100% JSON schema compliance for downstream analytics.

Backend Python Developer <i>FinTech Innovations</i>	2019 — 2022 <i>Austin, TX</i>
---	---

- Built and maintained 50+ microservices in FastAPI, handling over 2 million requests per day.
- Integrated OCR and NLP tools to extract financial metrics from quarterly reports with 98% accuracy.
- Automated deployment workflows using Terraform and Kubernetes, reducing release cycles from bi-weekly to daily.

KEY PROJECTS

Open-Source: "The Parser" CV Agent

Developed a specialized agentic framework that uses Gemini Flash's long-context window to analyze multi-page CVs against complex Job Descriptions, providing a "Match Score" based on weighted skill gap analysis.

EDUCATION

B.S. in Computer Science

University of Texas at Austin

2015 — 2019

GPA: 3.9/4.0
